"World" Expansion Board

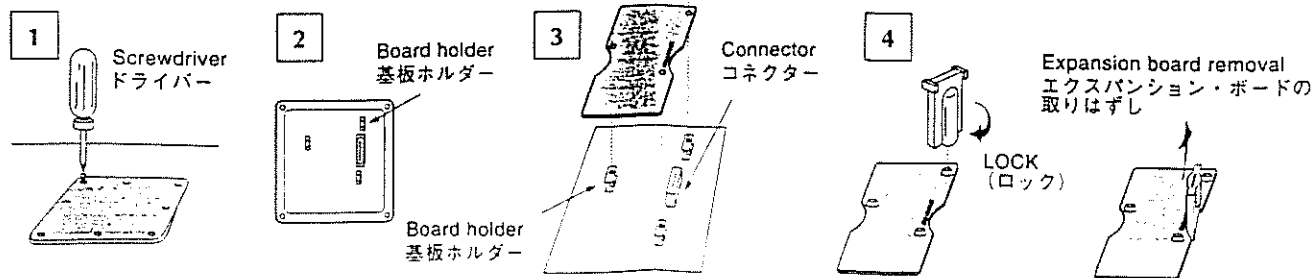

Thank you for choosing the SR-JV80-05 Roland Sound Library "World Expansion" board.

- This expansion board provides 255 new Waveforms, and 255 Patches that employ the Waveforms on the expansion board as well as those on the main unit. The diverse collection of Waves that you now have at your disposal offers a wide variety of ethnic instruments, including percussion/rhythms, from all major regions of the world (Africa, Asia, Middle East, South America, North America, Australia, and Europe). Also included are phrases that employ the performance techniques used in these various cultures.
- One Rhythm Set is provided on the board. (Note: Can be used with the JV-1000 and JV-90.)

■ INSTALLING THE EXPANSION BOARD

* Turn off your instrument.

1. Remove the cover located on the bottom (or top) of your instrument.
2. Rotate the board holders so they align with the connector.
3. Mount the Expansion Board on the connector so the three board holders project through the Expansion Board.
4. Affix the Expansion Board by using the attached tool to turn the board holders in the LOCK direction.
(To remove the Expansion Board, turn the board holders in the UNLOCK direction and hook the board with the provided tool. Remove the board and secure the cover plate.)
5. Check if the Expansion Board is correctly installed.
If the "EXP" display is not selected (shown) in the Waveform Selection Screen (refer to the owner's manual of the instrument you use), remove the Expansion Board and install it properly.

■ NOTE

When you use the Waveforms/Patches stored on the expansion board with the instrument other than the JV Series, those Waveforms/Patches may sound slightly different from those used with an JV unit. For a detailed explanation about this, read the owner's manual of the instrument you use.

● With certain Waveforms, there are some restrictions as to the amount of pitch change available.

● When you create a Patch using the waveforms stored in the Expansion Board, observe the following points:

If you make a Patch with a single voice and then later play it in a chord, the sound may be distorted with certain settings for the Effects and TVA. If this happens, adjust the level of the Effects and TVA.

● ウェーブフォームによっては、ピッチの変化が制限されています。

● このエクspansion・ボードに収められているウェーブフォームを使ってパッチを作るときには、次の点に注意してください。

単音でパッチを作ったとき、エフェクトやTVAの設定状態によって、その音を和音で演奏すると音が歪む場合があります。このようなときは、エフェクトやTVAのレベルを調整してください。

● To use Patch data stored in the Expansion Board, load the relevant Patch data according to the owner's manual of the instrument being used.

● Patches in the above Patch List that include the word "Loop" in their name use Waveforms which employ phrase looping. When using such Patches, it is best to play them using the C4 key. (If some of these Patches are played on keys on the keyboard which are relatively distant from C4, you could encounter problems (such as with the timing).

● エクスパンション・ボードのパッチを使うときは、使用機器の取扱説明書にしたがって、パッチのロードを実行してください。

● パッチ・リストの中で、名前の一部に"Loop"と付いているパッチはフレーズ・ループのウェーブフォームを使用しています。このパッチを使うときは、C4で演奏することをお奨めします。(パッチによってはC4から大きく離れた鍵盤で演奏するとタイミング等のずれを生じるものがあります。)
