Thank you for choosing the Roland SR-JV80-08 "Keyboards of the '60s & '70s" Wave Expansion Board.

This expansion board follows in the footsteps of the previously released "Vintage" board, this time focusing on the years from 1960-79. It offers a collection of Waveforms and Patches that faithfully reproduces the sounds of the vintage organs, electric pianos, clavi and other instruments that helped define the character of much of the music popular during that period.

* By using this Expansion Board in combination with the SR-JV80-04 "Vintage Synth" board (also available at your retailer), you will have a really comprehensive collection of vintage sounds at your disposal.

● **Waveforms: 255 Kinds**

- Organs: 136
- Electric Pianos: 54
- Clavi: 49
- Other Instruments: 16

● **Patches**

255 kinds designed for the JV-1080 & XP-50; another 255 for the JV-80/880/90/1000.

(On the JD-990, you can use Patches designed to be used with the JV-80/880/90/1000 if you "Convert Load" them first.)

■ **INSTALLING THE EXPANSION BOARD**

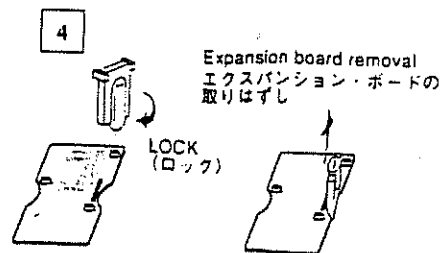

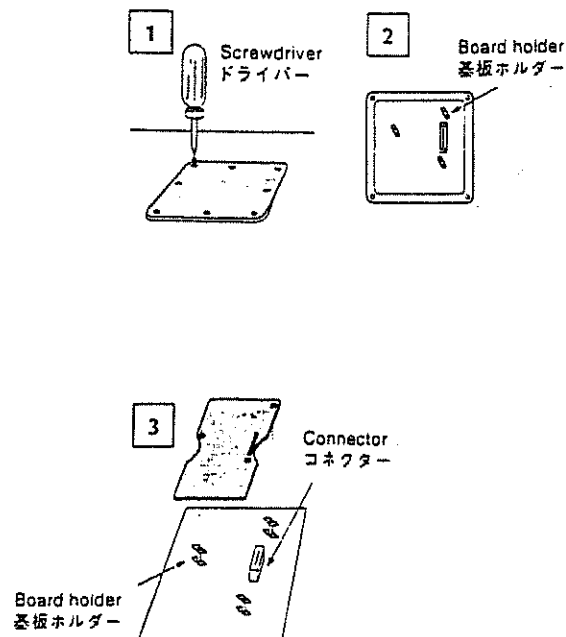

* Turn off your instrument.

1. Remove the cover located on the bottom (or top) of your instrument.
2. Check that the plastic board holders are positioned as shown. Rotate them if necessary.
3. While positioning the holes on the board over the board holders, carefully insert the connector on the board into the socket on the instrument. Make sure the connector is securely connected, and that all three board holders project through the holes.
4. Use the supplied Installation Tool to turn the holders in the LOCK direction, so the board will be fastened in place.

(To remove the Expansion Board, turn the board holders in the UNLOCK direction, and lift up the board using the provided tool. Remove the board and secure the cover plate.)

5. Check if the Expansion Board is correctly installed.

If the "EXP" display cannot be selected (doesn't appear) in the Waveform Selection Screen (refer to the owner's manual of the instrument you use), remove the Expansion Board and install it properly.

WAVEFORM LIST

No.	Name	No.	Name	No.	Name	No.	Name	No.	Name

When you create a Patch using the waveforms stored in the Expansion Board, observe the following points:

- If you make a Patch with a single voice and then later play it in a chord, the sound may be distorted with certain settings for the Effects and TVA. If this happens, adjust the level of the Effects and TVA.

このエクステンション・ボードに取められているウェーブフォームを使ってパッチを作るときには、次の点に注意してください。

- 単音でパッチを作ったとき、エフェクトやTVAの設定状態によって、その音を和音で演奏すると音が歪む場合があります。このようなときは、エフェクトやTVAのレベルを調整してください。

- Refer to the owner's manual for your instrument for specific instructions on how to play Patches on the expansion board.
- On the JV-1080 and XP-50, you can not select only the Patches which are designed to be used with the JV-80/880/90/1000.

- エクスパンション・ボードのパッチを発音させるときは、使用機器の取扱説明書にしたがって、実行してください。
- JV-1080, XP-50では、JV-80/880/90/1000専用のパッチを選ぶことはできません。

- Refer to the owner's manual for your instrument for specific instructions on how to play Patches on the expansion board. On the JV-80/880 and JD-990, a "Load" of the Patches needs to be performed.
- On the JV-80/880/90/1000, you can not select the Patches which are designed to be used with JV-1080 and XP-50.
- On the JD-990, you can use Patches designed to be used with the JV-80/880/90/1000 if you "Convert Load" them first. However, such Patches will sound slightly different than they would if played on the JV-80/880/90/1000.

- エクスパンション・ボードのパッチを発音させるときは、使用機器の取扱説明書にしたがって、実行してください。JV-80/880, JD-990では、パッチのロードを実行する必要があります。
- JV-80/880/90/1000では、JV-1080, XP-50専用のパッチを選ぶことはできません。
- JD-990で、JV-80/880/90/1000専用のパッチをコンバート・ロードして使用することができます。その場合、JV-80/880/90/1000で使用したときの音色とは多少異なります。
