**E-60/E-50**

**Music Workstation**

**Great Sounds, Performance, and Price**

A new generation of keyboards has arrived! Both the E-60 (76 keys) and E-50 (61 keys) offer advanced music styles and excellent sound quality derived from the famous G-70, perfect for both beginners and advanced musicians alike.

**The Best Sound**

With their 64-voice polyphony sound engines, the E-60 and E-50 deliver impressive, first-class sound quality. With 512MB WAVE ROM onboard each, they boast the best sounds from the Roland library. Many new studio sampled guitars, accordions, and much more provide an ultra-realistic experience.

**Fresh Musical Content**

E-60/50 provide more than 100 fresh styles created by a professional team of international programmers who captured their local musical preferences. All these styles sound incredibly “live,” and expertly mixed and mastered.

**Incredible sound**

**Attractive and lightweight design**

**Intuitive user interface**

**Fresh musical content**

**Powerful built-in Audio system**

**Intuitive User Interface**

Both the E-60 and E-50 incorporate a large 16 gray-scale display with a touchscreen for quick and simple operations. Moreover a multitude of buttons has been included on the control panels for ease of use. The acclaimed Guitar Mode is now available together with dedicated Guitar Mode button.

**Attractive, Lightweight Design**

Thanks to their powerful 4-speaker, bi-amped sound systems, complete with a Bass Reflex System and a Digital Bass Enhancers, the E-50 and E-60 both deliver incredible, high-impact sound.
