Roland

System.01 MOBILE

>>> DAW Software SONAR X2 ESSENTIAL >>> Audio Interface DUO-CAPTURE EX

MOBILE system — convenient, compact, and easy to use

HOW TO USE

For music production focused on **guitar** and **vocals**

For creating demos using the included **backing tracks**

For mobile music production in **any location**

The MOBILE System enables music production for musicians in any location.
Simply install the included software on your PC, connect the audio interface, and the system is ready!
The software contains a wealth of loop material,
including audio phrases of drums, basses, synthesizers, guitars, and more.
Combine loop material with recorded parts to quickly make high-quality demos and completed tracks.
A studio that can be carried in a backpack, the MOBILE System is built to travel —
from the rehearsal studio to the stage to the street.

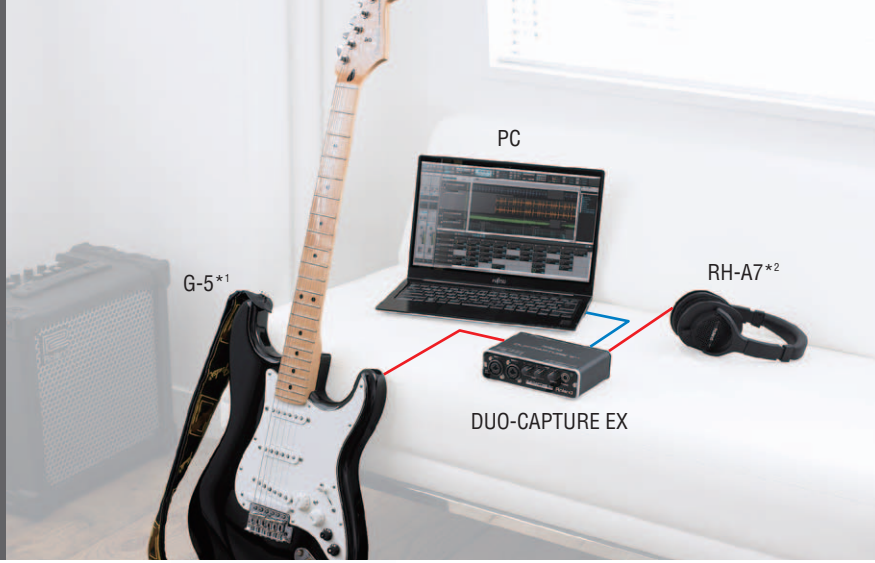
Overview



USB

Audio

*1 G-5 Stratocaster — fuses the best of electric and acoustic guitar

*2 RH-A7 professional headphones — features open-air construction

>>> DAW software

Powerful tools for today's musician.

SONAR X2 Essential has all fundamental tools for modern music creation, and features an intuitive interface with drag and drop operation. Start creating original music immediately with 64 tracks, hundreds of sounds, and a wide variety of onboard plug-in effects. Process and mix loops and recordings to shape your own unique musical creations.

>>> Audio Interface

Start recording your music.

DUO-CAPTURE EX is an ideal unit for first-timers and pros alike.
Its distinctive features include the VS PREAMP (which translates the sound from microphones cleanly and clearly) and its multi-platform compatibility with Mac, PC, and iPad.
Housed in a compact, road-tough metal case, with power supplied via one USB-cable (or also operable via batteries and optional AC adaptor), DUO-CAPTURE EX lets you produce music conveniently anytime, anywhere.

USB Audio Interface

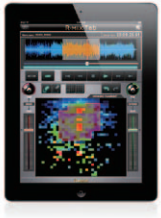
DUO-CAPTURE EX

for Windows / Mac / iPad | VS PREAMP | ASIO | 2 Audio In/Out | 1 MIDI In/Out | BATTERY POWERED

Enjoy recording and remixing with iPad apps.

The DUO-CAPTURE EX audio interface offers multi-platform compatibility, including with Apple's iPad*.
By integrating DUO-CAPTURE EX with a wide variety of music-production applications available on the iPad, you can enjoy audio editing, recording, and remixing at any time, anywhere you like. Turn your musical ideas into reality the moment inspiration strikes.

* Apple iPad Camera Connection Kit is required for use with the iPad; must be powered by batteries or AC adapter when used with the iPad.



R-MIX Tab for iPad

The application that visualizes sound for intuitive control.

Available on the App Store

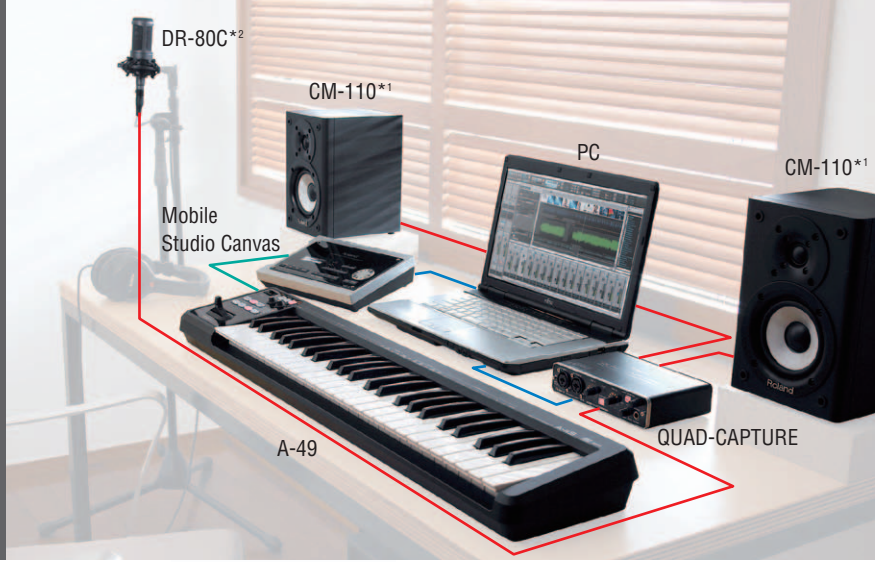
*1 CM-110 package —
contains two satellite speakers and a subwoofer

*2 DR-80C condenser mic —
captures the true expression and dynamics of the voice



>>> DAW software

Advanced Music Creation Software.

SONAR X2 Studio has a complete set of mixing and editing tools along with thousands of inspiring sounds, dozens of effects, and unlimited tracks. Program beats, trigger loops and phrases, manipulate the pitch and time of recordings and create layered, complex mixes. Endless sonic possibilities and cutting-edge features spark your creativity and fully capture your musical ideas.

SONAR X2
STUDIO
for Windows

>>> Audio Interface

High-performance yet compact.

QUAD-CAPTURE can automatically assist your recording setups. Simply activate the AUTO-SENS feature, play your connected instruments, and QUAD-CAPTURE will instantly set the ideal recording level for each input.
Two high-quality VS PREAMPs are built in, and a variety of input types are supported. Thanks to our unique VS STREAMING low-latency technology, you can record more comfortably and naturally than ever before.

>>> MIDI Keyboard Controller & Sound Module

Premium performance and superior stability.

If you don't want to sound like everyone else, you can create your own phrases from scratch using a MIDI sound module. With Roland's A-49 MIDI keyboard connected to the Mobile Studio Canvas, you can enjoy latency-free performance and superior stability without the CPU burden associated with soft synths.

Roland MEDIA PRODUCTION SYSTEM

>>> DAW Software SONAR X2 PRODUCER >>> SuperNATURAL Sound Module INTEGRA-7

>>> Audio Interface OCTA-CAPTURE >>> MIDI Keyboard Controller A-88

PROFESSIONAL system — the highest quality for demanding pros

HOW TO USE

Multi-channel
simultaneous recording

Mastering with
professional studio quality

Surround mix capability
for audio and video production

The PROFESSIONAL System is designed for those who demand premium sound quality.

Record a full drum kit or live band with the system's multi-channel inputs.

Tap into a world of stunning sounds quickly and easily from the fully stocked Roland library.

The MIDI controller with piano-keyboard action lets you take full advantage of the high-quality sound source.

Provoke your inspiration, and inspire your creativity.

The PROFESSIONAL System combines high-level recording, editing, and mixing —

as well as the revolutionary Motional Surround technology — in one convenient package.

*1 External microphones and/or instruments (not pictured) would connect to OCTA-CAPTURE in this setup.

*2 The CM-220 package contains two satellite speakers and a subwoofer.

>>> DAW software

Fully equipped for professional music production.

SONAR X2 Producer, the flagship of the SONAR series, encompasses every element of the music-production process and lets you move seamlessly between the elements. Fluidly navigate from recording to editing to mixing and mastering. With Roland's groundbreaking R-MIX engine built in, you can remove, extract, and apply effects to the individual instruments *within* a stereo mix — a dream come true for deconstructing and manipulating stereo mixes after the fact. Innovative and inspiring, SONAR X2 Producer takes you from concept to completion with power, speed, and ease.

SONAR X2 PRODUCER for Windows

>>> Sound Module

Powerhouse rack for fast, fluid workflow.

The new INTEGRA-7 provides a gold mine of SuperNATURAL sounds in a fully stocked module with over 6,000 sounds ready to go. The dedicated hardware sound engine and internal effects processor reduce the load on your computer's CPU and increase performance stability. It also introduces Motional Surround, an ambience engine that lets you graphically control the distance and position of each part within a 360-degree sound field. The INTEGRA-7 offers a smooth, consistent music production environment for any style of music.

Create and edit sounds with the custom iPad editor app.

The "INTEGRA-7 Editor for iPad" (free download from App Store) provides graphical control of the INTEGRA-7 via the iPad.

SuperNATURAL Sound Module

INTEGRA-7

for Windows / Mac | Motional Surround | SuperNATURAL | GM2 | Roland Wireless Connect

>>> Audio Interface

High-quality audio interface with multiple inputs.

OCTA-CAPTURE's eight high-quality VS PREAMPs and low-latency VS STREAMING lets you simultaneously record multiple instruments or a live band.

USB2.0 Audio Interface

OCTA-CAPTURE

for Windows / Mac | VS PREAMP | VS STREAMING | ASIO | 10 Audio In/Out | 1 MIDI In/Out

>>> MIDI Keyboard Controller

The controller that speaks SuperNATURAL and plays like a Grand.

The A-88 sets a new standard for portable MIDI controllers with its Ivory Feel-G keyboard, featuring 88 weighted hammer-action keys that deliver luxurious grand-piano touch and musical expressiveness. If you're driving SuperNATURAL instruments such as the INTEGRA-7 sound module, you can map the A-88's controllers instantly via the SuperNATURAL button.
