Seamless. Genius.

From getting great tone to releasing a final mix, today's musicians must master every element of the music production process. SONAR X2 Producer is there every step of the way, and the revolutionary Skylight interface lets you move seamlessly among the elements, instantly going from recording to editing to mixing and back again. Dial up the perfect synth sound with Rapture or a searing guitar tone with TH2 Producer. Record it, tighten it, chop it, and drop it in the Matrix for realtime triggering.
