# Panel Descriptions

### MEMO

ation guide, functions added by installing the TR-8 update (ver. 1.10, ver. 1.11) and 7X7-TR8 Drum Machine Expansion are printed in red

## [VOLUME] knob

Adjusts the output volume of the MIX OUT jacks and the PHONES jack. This does not affect the volume of the ASSIGNABLE OUT jack

## 2 [CLEAR] button

Frases the recorded content for an individual instrument, or deletes a nattern

Mode buttons

	Controller	Explanation	
	[TR-REC] button	Step-records a pattern.  Refer to "TR-REC (Step Recording)"	
	[PTN SELECT] button	Select a pattern.  Refer to "Playing/Selecting/Controlling a Pattern"	
	[INST PLAY] button	Lets you use the pads () to perform in real time. You can perform even while a pattern is playing.	
	[INST REC] button	Lets you realtime-record a pattern. ➡ Refer to "INST-REC (Realtime Recording)"	
	DRUM [KIT] button	Select a kit.  Refer to "Changing Kits/Instruments"	
	SELECT [INST] button	Selects the sound (tone) for an instrument.  Refer to "Changing Kits/Instruments"	

#### ILAST STEP button

## 5 Variation buttons [A][B]

tches between variations (A/B) of a pattern. 🔿 Refer to "Plaving/Selecting/Controlling a Pattern"

## 6 [START/STOP] button

lavs/stops the pattern. While a pattern is playing, you can hold down the [TAP] button and press the [START/STOP] button to move to the nning of the patt

## ACCENT section

an accent to the specified step. 
Refer to "TR-REC (Step Recording)"

#### 8 REVERB section/ 9 DELAY section t you edit the parameters for reverb and delay

Controller Explanation				
[LEVEL] knob Volume of the reverb/delay				
[TIME] knob Length of the reverb/delay				
[GATE] knob Timing at which the reverb is cut off (only for reverb)				
[FEEDBACK] knob Delay repetitions (only for delay)				
[STEP] button Lets you use the pads ((1)) to specify the step to which reverb or delay will be a				

#### EXTERNAL IN section

Here you can adjust the sound that's input to the EXTERNAL IN jacks.

	Controller	Explanation			
[LEVEL] knob		Volume			
		Adjusts ("ducks") the volume of the audio input according to the pattern being played by the TR-8 (side chain). Turning the knob toward the right produces a greater effect.			
	[STEP] button	Lets you use the pads (()) to specify the steps at which side chaining will adjust the volume.			

## INST edit section

Here you can adjust the tonal character of the instrument

The TR-8 lets you use 11 different INST (instruments: BASS DRUM-RIDE CYMBAL) in a pattern. You can assign a desired sound (tone) to each instrumen

Controller	Explanation			
[TUNE] knob	Tuning (pitch)			
[DECAY] knob	Length of decay			
[ATTACK] knob Strength of the attack (only for BASS DRUM)				
[SNAPPY] knob Volume of the snare (stretched wires) (only for SNARE DRUM)				
[COMP] knob	Amount of compressor effect (only for BASS DRUM and SNARE DRUM)			
[LEVEL] fader	Volume			

For some tones, there might not be an effect.

## 12 INST select buttor

Mode	Explanation
TR-REC	Selects the instrument for TR-REC.  Refer to "TR-REC (Step Recording)"
DRUM SELECT-INST	Selects the instrument whose tone will be changed.  Refer to "Changing Kits/Instruments"

# B SCALE section hes the scale of steps during TR-REC

Button/LED	Explanation				
[SCALE] button	Choose one of the following four to specify the note value of each step.				
SCALE )	8th note triplet () <sub>3</sub> )	Three steps will be one beat.			
- •	16th note triplet ( 👌	Six steps will be one beat.			
	16th note (🔊	Four steps will be one beat.			
	32nd note (🕅	Eight steps will be one beat.			

## Pad [1]-[1](INST)/ Pad [12]-[15](ROLL)/ Pad [16](MUTE)

Mode	Explanation					
TR-REC	For each step, specify whether the instrument will sound.					
PTN SELECT	Select a pattern 1–16.					
INST PLAY	<ul> <li>Pads [1]-[11](INST) play instruments.</li> <li>If you hold down [12]-[15](ROLL) and press [1]-[11], a roll is played on that instrument; you can press two or more of the [12]-[15] pads to change the roll variation. If you hold down the [INST PLAY] button and press the [12]-[15] and [1]-[11] pads, the sound will be held so that it continues playing even after you release your finger. To cancel Hold, press the selected pad without pressing [INST PLAY].</li> <li>If you press [16](MUTE) and then press the instrument pad or INST select button, that sound is muted.</li> </ul>					
INST REC	During realtime recording, the pads record the corresponding instrument.					
	Select kits 1–16.					
DRUM SELECT INST	Select a tone for the instrument					

#### SCATTER section

Controller	Explanation		
[SCATTER] knob	Selects the scatter type.		
[DEPTH] button	If this is on, the [SCATTER] knob adjusts the scatter depth.		
[ON] button	Enables the scatter function.		
<ul> <li>The scatter effect will not apply to the first cycle of the loop; the effect will apply to the second and subsequent cycles of the loop.</li> <li>By holding down the [DEPTH] button and pressing the [ON] button, you can apply scatter to just the cycle that is currently playing.</li> </ul>			

#### 16 Display/ 17 TEMPO section is shown in the display (🚯

•	
Controller	Explanation
[TEMPO] knob Adjusts the tempo.	
[SHUFFLE] knob Adjusts the amount of shuffle (bounce).	
[FINE] knob	Makes fine adjustments to the tempo.
[TAP] button	To set the tempo, tap this button several times at the desired interval.

# Playing/Selecting/Controlling a Pattern

- Playing a pattern 1. Press the [START/STOP] button (6).
- 2. Use scatter () or INST edit () to modify the sound

# Selecting a pattern

- 1. Press the [PTN SELECT] button (3). 2. Use the pads (1) to select a pattern.
- The selected pad blinks. It remains lit during playback. If you select the next pattern during playback, the
- pad blinks. You can have a range selection by pushing two

pads simultaneously. The selected patterns play sequentially.

3. Use the variation buttons () to select A or B. If you make both buttons [A] and [B] light, A and then B are played successively.

# Generating a random pattern

- You can automatically generate a random pattern. This modifies the selected nattern 1. Hold down the [PTN SELECT] button (3) and
- press the SCATTER [ON] button (
- 2. To save, press the [TR-REC] button (blinks)

# Copying a pattern

- 1. Press the [PTN SELECT] button (3).
- If a pattern is playing, stop it.
- Hold down the [PTN SELECT] button (3) and use the pads (4) to specify the pattern that you want to copy.
- 3. Press the pad to which you want to paste the

# Restoring the Factory Settings (Factory Reset)

- Here's how to return the TR-8 to its factory-set state
- 1. While holding down the [CLEAR] button, turn on the power.
- The display indicates "c5k" and the [START/STOP] button blinks. If you decide to cancel the factory reset, turn off the Press the [START/STOP] button to execute the factory reset.
- 3. When the display indicates "仁叩"," turn the TR-8's power off, then on again.

# Changing Kits/Instruments

Added instruments TR-707/727 sounds (tones) and original sounds based on the TR-808 HC circuit have been added. The color that's displayed when you change an instrument's sound (tone) is pink for TR-808, yellow for TR-909, orange for TB-707 and blue for TB-727

n the interest of product improvement, the specifications and/or contents of this package are subject to change wi

# Playing alternate sounds or weak beats The following sounds allow you to play alternate sounds.

For the other sounds, you can specify weak beats.

# TR-REC (Step Recording)

In this method of recording, you create a pattern by specifying the steps at which each instrument will sound. This will modify the pattern that is selected. You can even play back the pattern while you're creating it.

1. Press the [TR-REC] button (3).

- 2. Use the variation buttons to select either A or B. If A and B are playing consecutively, you can hold down [A] and press [B] to select A, or hold down [B] and press [A] to select B.
- By holding down the [TR-REC] button and pressing [A] or [B], you can edit the pattern of the specified variation regardless of the pattern that's currently playing.
- 3. Use the [SCALE] button (
  ) to specify the scale.
- 4. Press one of the INST select buttons (1) to select the instrument that you want to record.
- 5. Use the pads (()) to specify the steps at which you ment to sound want the se 6. Repeat steps 3–4.

#### Specifying the length of the pattern (LAST STEP)

- Here's how to specify the number of steps that the pattern will contain.
- 1. Hold down the [LAST STEP] button () and press a pad (1) to specify the last step.
- You can't specify LAST STEP if multiple patterns are selected.

## Specifying accents

- 1. Press the [STEP] button (7). 2. Press the pads () for each step at which you want to
- add an accent 3. Use the [LEVEL] knob (7) to adjust the volume of the

# Applying reverb or delay

- Press the [STEP] button (39).
   Use the pads (14) to specify the steps at which you
- want to apply r verb or delay
- 3. Use the knobs such as [LEVEL] and [TIME] (89) to adjust the paramet

# Deleting a recorded instrument from the

pattern Refer to "INST-REC (Realtime Recording)"

# Playing alternate sounds or weak beats

The following sounds allow you to play alternate sounds. For the other sounds, you can specify weak beats. 707 SD1/2.

- 707 BD1/2. 707 RS/Cowbell, 727 H/L Bongo, 727 H/L Agogo,
- 707 HC/Tambourine, 727 Mute/Open H Conga, 727 Cabasa/Maracas
- 1. Hold down one of the INST select buttons (1) and press the appropriate pad (14). The pad lights dimly.

# Specifying weak accents

- 1. Press the ACCENT [STEP] button (7).
- 2. For each step at which you want to specify a weak accent, hold down the ACCENT [STEP] button (7) and press the appropriate pad.
- 3. Use the ACCENT [LEVEL] knob (7) to specify the volume of the weak accent.
- You can specify either an accent or a weak accent, not
- \* The volume of the accent and the volume of the weak accent change in tandem

Specifying a flam 1. Hold down the [TR-REC] button (3) and press a pad to specify a flam. The pad is lit purple

# Specifying the flam spacing

- You can choose the flam spacing in a range of eight steps.
- 1. Hold down the [TR-REC] button (3) and use the
- [TEMPO] knob ( ) to specify the flam spacing.
- \* If you specify "0," there will be no flam effect.

# ystem Settings

1. While holding down the [PTN SELECT] button, turn on the power.

The [START/STOP] button blinks. If you decide not to make settings, turn off the power. 2. Use the [TEMPO] knob and the pads to change the settings.
